

My journey and work to date

Anand Shrivastava: AI corporate trainer, AI business consultant and co-founder of ScaleSync. Every engagement, client, result and credential so far, in one place.

In short: Anand Shrivastava has trained 500+ professionals and students across 11 engagements with companies, business owners and universities in India and the UK. He is a Google Cloud Certified Generative AI Leader, a published AI researcher and co-founder of ScaleSync.

500+

professionals and students trained

100+

employees trained in one corporate session

350+

learners in a single day

95%+

deployment accuracy reported by Rishvi Technology (UK)

THE JOURNEY SO FAR

From research to AI in the room.

DECEMBER 2023

Research published

"Multiple Approaches of Named Entity Recognition", IJSRD, LDRP Technical Conference 2023 (GTU Graduate School of Engineering and Technology).

AUGUST 2024

Co-founded ScaleSync

An AI adoption consultancy for SMEs, startups and universities, built on the AIOS™ method.

APRIL 2025

Research presented

"Tailoring Speech Recognition for Indian Accents: Fine-Tuning Whisper-Small for English and Hindi ASR", ISETE International Conference on AI, ML and Big Data Engineering, Gwalior.

CREDENTIAL

Google Cloud Certified: Generative AI Leader

Plus certifications in LLMs, prompt engineering and responsible AI.

UNIVERSITIES

Hands-on AI programmes on campus

GTU, Indus University (5-day programme), AIT Ahmedabad (350+ students in one day), SVIT Indore and more.

AUGUST 2026

Impero IT Services

100+ employees trained in one on-site session; 56 team questions turned into one shared AI process.

SEPTEMBER 2026

GTU ITR

40+ diploma students built live AI apps, a job-hunting agent and a Telegram bot in two days.

ONGOING

Consulting and coaching

An AI operating bundle for Dalmia Synthetics, coaching for PD Enterprise, and 15+ professionals coached 1:1, now working in the US, Canada and the UK.

Corporate training

Corporate AI training · Ongoing

Impero IT Services

56 questions in. 8 real problems out. One process for everyone.

100+ employees trained

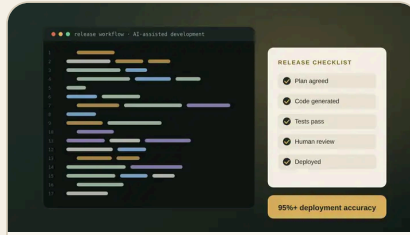

56 team questions analysed

8 root problems solved

Who: 100+ employees across dozens of technical and non-technical departments. **Format:** On-site session, Ahmedabad (August 2026).

Delivered: Diagnosis first: 56 questions collected from teams, grouped into 8 real problems. Context engineering: keep the AI aware of architecture and decisions as projects grow. Plan adherence and scope: stop the AI drifting from the agreed plan.

Result: Every department now follows the same process and checklist when working with AI.

Corporate AI training · Completed

Rishvi Technology (UK)

95%+ deployment accuracy, reported after the workshop.

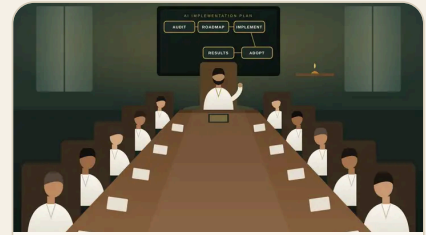

95%+ deployment accuracy

2 day workshop

Who: Development team at a UK software provider for logistics companies. **Format:** 2-day hands-on workshop, after a full diagnosis.

Delivered: A full diagnosis of stack, challenges and goals. Skills, connectors and plugins inside the development workflow. Team SOPs for AI-assisted development.

Result: Rishvi reports 95%+ deployment accuracy since the workshop.

Corporate AI training · Completed

Dada Bhagwan Foundation

Brief to floor plan, roadmap and budget in one day.

Who: Department heads across the construction function. **Format:** 1 day, after a discovery call.

Delivered: Which of Claude and Gemini fits each part of a construction workflow. A 2D floor plan generated with AI. A project roadmap with the agencies needed at each stage.

Result: The team now goes from brief to plan, budget and previews with tools they know how to use. The relationship continues.

Owners, coaching and consulting

AI consulting, implementation and owner training · Ongoing

Dalmia Synthetics

From an unstructured pipeline to an AI-run operation, stock to customer.

100 years in business

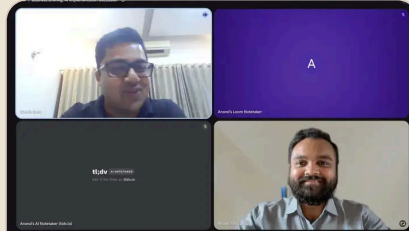

2 days on site

8 AI systems in the bundle

Who: Owner and team of a textile wholesale and retail business, nearly 100 years old.
Format: 2-day on-site visit, then ongoing implementation.

Delivered: Stock intake to sale, tracked in one AI-powered flow. Customer retention with periodic checks on how customers behave. Purchase-pattern analysis feeding stock analysis.

Result: The owner is very happy with the bundle. Implementation is ongoing.

1:1 AI business coaching (online) · Ongoing

PD Enterprise

Two sessions. The clarity he had never had before.

30+ years in the lubricant industry

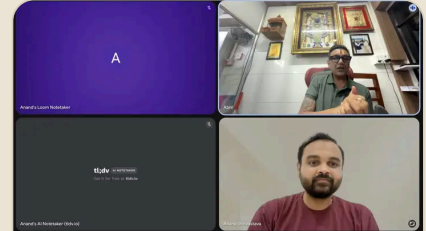

2 sessions to working level

10 session programme

Who: Business owner with 30+ years in the lubricant industry. **Format:** 10-session programme, ongoing.

Delivered: Business analytics with AI on his own data. Presentation generation. Detailed roadmap generation.

Result: In just two sessions he was working at the level he needed, accurately.

Personal 1:1 coaching · Ongoing

1:1 corporate coaching

15+ coached. Still coming back for more.

15+ professionals coached

Who: 15+ corporate professionals. **Format:** Ongoing.

Delivered: Coaching built around each role and goal. Refresh sessions as tools change.

Result: Professionals now in the US, Canada and the UK still request sessions to stay current.

Universities

University workshop ·
Completed

GTU ITR

Knowing nothing to
shipping live AI apps in
2 days.

40+ diploma students

2 days

4 things each student built

Who: 40+ diploma students. **Format:** 2 days, September 2026.

Delivered: Prompt engineering done properly. No-code tools and agentic coding platforms. A personal job-hunting AI agent built in n8n.

Result: Every student went from knowing to delivering: a live app, a working job-hunting agent and an AI-built CV.

University workshop ·
Completed

Indus University

Prompting basics to a
state-level hackathon in
5 days.

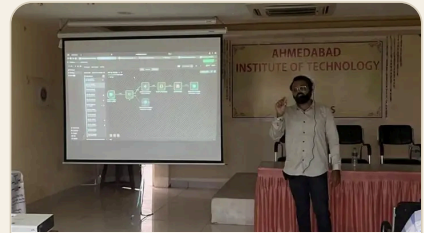

80+ students

5 days

Who: 80+ students and 2 faculty members. **Format:** 5 days, 5 to 6 hours a day.

Delivered: Day 1: prompting done properly. Days 2 to 4: AI agent tools by task, and context engineering. Day 5: hackathon on Gujarat government problem statements.

Result: Students said they had never seen this level of prompting. Several left ready to start ventures.

College workshop · Completed

Ahmedabad Institute of Technology

350+ students. One day. A
live AI bot each.

350+ students in one day

Who: 350+ students. **Format:** 1 day, two batches.

Delivered: Prompting basics. A complete no-code AI agent in n8n. A live Telegram chatbot connection.

Result: Both batches built and connected a working AI agent.

University workshop ·
Completed

Gujarat Technological University

A deployed chatbot in
under five hours.

60+ students per batch

5 hours to a live app

Who: 60+ students per batch.
Format: 1 day (under 5 hours).

Delivered: Prompting
fundamentals and agentic AI. AI-
assisted coding. A chatbot
deployed on Gradio.

Result: Every student left with a
live product they built
themselves, and a certificate.

College workshop · Completed

Shree Vaishnav Institute of Technology, Indore

Near zero to custom AI
workflows in two days.

70+ students

2 days

Who: 70+ first-semester and
final-year students. **Format:**
2 days.

Delivered: AI workflows with
LangChain and LangGraph.
Weather and web search APIs
wired in.

Result: Students said they
were ready to use it in their
own projects.

IN THEIR WORDS

What clients said.

“

The session was very interactive. The
whole team liked it and loved it.

Impero IT Services

“

I have never gained this kind of
knowledge and clarity before.

PD Enterprise

Certified. Published.

Google Cloud Certified: Generative AI Leader

Multiple Approaches of Named Entity Recognition

Anand Shrivastava, G. D. Makwana. IJSRD, LDRP
Technical Conference 2023, December 2023.
ISSN 2321-0613.

Tailoring Speech Recognition for Indian Accents

Fine-tuning Whisper-Small for English and
Hindi ASR. Presented at the ISETE International
Conference on AI, ML and Big Data Engineering,
Gwalior, 3 April 2025.

HOW I WORK

The AIOS™ method and services.

Audit

Where AI fits in your
teams, tools and
data.

Roadmap

Use cases ranked
by return, in order.

Implementation

Build and connect
the automations.

Adoption

Train people until it
becomes how they
work.

Results

Measure and
improve what
changed.
